

CARDIOVASCULAR ACADEMY XVII

Peripheral Arterial Disease

Update 2014

Young Cardiologists Working Group of RSC in cooperation with TSCVS

April 11-13, 2014

Moscow, Russian Federation

Dear Colleagues,

It is a great pleasure for me to announce and invite you to the upcoming 17th. CARDIOVASCULAR ACADEMY meeting of the Young Cardiologists Working Group of the RSC on April 11-12, 2014 in Moscow together with Turkish Society of Cardiovascular Surgery.

Today, I am happy and proud to let you know that the new meeting which is the 17th. CARDIOVASCULAR ACADEMY meeting will again be a multinational event: this time together with the attendance cardiologist and cardiovascular surgeons from neighbour countries.

In line with the previous CARDIOVASCULAR ACADEMY meetings, this 17th. meeting will be devoted to the 'Management of Cardiovascular Risk' and 'Increasing the Life Expectation and Quality of Life' in adult population.

Our meeting will mainly focus on the **Management of Peripheral Arterial Disease** which is an increasing problem in modern life due to changing life styles of adult population.

I am sure you will be refreshed with the evidence based and up dated data from our panellists during the meetings.

We also expect you to be the active participants to the meetings with your daily experiences and questions in order to get the best out of CARDIOVASCULAR ACADEMY.

In this meeting as well, like the previous one planned in April 5-6, 2014, in addition to our panels, we will have case discussions with active participation of the audience.

I hope that we will all have better confidence to help our patients that we face in our daily practices with the refreshment that we get from the meeting.

I look forward to seeing you next year in the beautiful Moscow.
